

MAINTENANCE

Cleaning Instructions

Aluminium and Chrome parts should be cleaned with a mild non scratch household cleaner and a soft cloth or sponge.

Do not use acidic-based descaler products or products which are unsuitable for cleaning enamelled surfaces, including abrasive cleaners or cleaners containing bleach or solvents, as the products will effect the anodised framework. Under no circumstances use cleaners with a pH level exceeding 8.

Flash Bathroom Spray or Cif Bathroom Spray can be used on Matki Products. Various specialist cleaning and glass dressing products are available from retailers.

MATKI ONE[®]
WALL MOUNTED RAIL
700 MODEL MAXIMUM SIZE

8943 AF 09/21

Matki recommend that this product is fitted by professional installers

MATKI ONE - WALL MOUNTED RAIL

The rail bar provided is cut to make a 700mm (between centres) rail.

- a** Smaller sizes are possible: tape up bar and mark new length. Cut to required size.

700 - new length required (between centres) = distance to cut off end of bar

Using a Hammer and Mandril tap the Start Nut into the end of the Rail bar. Make sure the wings on the star nut are curved towards you, out of the tube. TIP: Place the bar on a block of wood to protect the fitted wall arm from being damaged.

Fit the other wall arm (found in the box)

Screw fit wall flanges (keep cover plates to one side)

Level the rail, orientate the holes as shown and mark. Drill fixing holes in wall. Clean the area.

Remove the bar (step 'h') Fit correct rawl plugs for wall type. Secure the plate using the No.8 x 32mm Pan Head Screw (kit of parts).

Push fit cover plate, securing in place with silicon

Loosen/ tighten grub screw to attach/ remove bar

Push fit coloured caps
